- User Experience Designer
- Photographer
- Content Editor

LANGUAGES

Spanish - Native

English - B2

Experience

January 2024 - Present
Korbi Co.

Scrum Master

After completing training as a Scrum Master, I was able to apply my knowledge to help my current company improve team efficiency.

Technologies applied

JIRA, Confluence, Slack (Polly widget).

Knowledge applied

I do the complete Scrum ceremony, ranging from Sprint Planning, Daily/Weekly Meeting, Retrospective and Refinement. I use tools to estimate history points such as: Fibonacci, Effort & Dragons and T-Shirts.

January 2023 - Present
Korbi Co.

UI/UX Design

I started working at Korbi Co as a UI UX designer, doing user research as my main mission to achieve a friendly and aesthetic design for the launch of the company's software MVP.
I am currently working in this position.

Technologies applied

Figma, Adobe Illustrator, Adobe Photoshop, Confluence, JIRA, Lucidchart

Knowledge applied

Multimedia Design, Photo Editing, Graphic Design, User-Centered Design, Wireframes, Responsive Design, Usability Testing.

January 2022 - December 2022

Freelancer

UX Design / Digital content edition

After a work break for my professional training, I decided to dedicate myself to deepen in UXUI design, while advancing in my knowledge I accepted job offers where I could apply my skills acquired with what I learned and with my previous work experience.

Technologies applied

Adobe Illustrator, Adobe Photoshop, Adobe After Effects, Adobe XD, Figma

Knowledge applied

Multimedia design, Photo editing, Graphic design, Responsive design.

September 2017 - June 2021
Meraki Photographic Studio

Photographer

In collaboration with another photographer, we created the photographic studio "Meraki".
We were in charge of photographing social events, school events and trips, graduation ceremonies and personal books.
I was also in charge of editing and delivering the material to the client.

Technologies applied
Adobe Photoshop, Adobe Lightroom

Applied knowledge
Material edition, Photography

March 2016 - March 2018
Ministry of Agriculture, Livestock and Fisheries

Digital Content Editing

In my role as a digital content editor, my main task was to select the material shared with me by the photographer I was working with and edit it with Adobe Photoshop to clean and remove non-aesthetic objects and details from the scene and also adjust the color and lighting of each photograph to create a perfect result.
This material was later used for national advertising campaigns.

Technologies applied
Adobe Photoshop, Adobe Lightroom

Applied knowledge
Material editing
